

MOTOSIKAI - STREET CIRCUS SPECTACLE

Drumset sings, men fly above the van, audience is bedazzled!

Motosikai is movable, adjustable and fun circusshow to be played outside, inside, street, festivals and different kind of happenings all around Europe. One place to another moving van contains three circus-artists, twisted humour, teeterboard jumps, acrobatics, a cyborg and a ton of surprises.

The show pushes forward with steaming power through absurd series of skill and action. Motosikai is a parody of itself and brings sound and enjoyment to all kinds of human lifeforms.
