

CATERPILLARS

Photo: Heidi-Hanna Karhu

Caterpillars is a physical comedy based on the life cycle of the butterfly, as enacted by two less-than-capable clown puppeteers. The puppeteers ground the magical world of giant caterpillars, floating eggs, and waving flowers heavily in reality with their blunderings and general obtuseness. This is the first Kallo Collective show targeted for children and the style stays true to the company's universal style and crosses all age and language barriers.

KALLO COLLECTIVE CATERPILLARS
