URBOTEK

REVIEWS

“The acrobatic stunts and saltos of Kalle Lehto, Lassi Tauriainen and Teemu Virtanen on the teeterboard are loaded with edge and attitude. Rony Hämäläinen’s Cyr Wheel act was hypnotic and mesmerising.” -Aamulehti 18.1.2018

“Uncompromising new circus, personal, and in off beat track.” - Cherbourg 17.11.2017

CREW

6 circus artists
2 technicians

Additionally a tour manager or director upon request.

DESCRIPTION

Urbotek is the latest action packed production from the award winning Race Horse Company, which premiered in 2017.

The show is placed in an alternative shadow world of modern culture, urbanization and entertainment as it's characters collide with work, pleasure and search of fulfillment in the most radical ways.

There is a lot of STUFF! Durable sustainable materials, amazing silencer-zen technology, beautiful sexy circus people, dangerous sharp acrobatic skills, ultra flying juggling objects, larger than life characters, wondrous whirling dancing, You name it! 100% pure genuine crazy, weird and beautiful Finnish circus product, Urbotek has something for everyone and even more what you don't need. No holds barred.

Urbotek creates a strong atmosphere as it reflects the concept of modern urban life through humor and laughing at ourselves, the way we live and the things that are hard to accept. This fresh take on traditional & contemporary circus skills in an abstract scenario leaves you suprisingly touched and entertained!

URBOTEK

technical requirements
