

COMPANY NEW WORLD: MAAILMA X (WORLD X)

MAAILMA X is a surrealistic non-circus film. It is a description of a reality, which contains polar bear erotics, subnatural events and changes in infinity.

The main characters are (from left to right at the photo): a moose, a man with long hair, a man with very short hair and a polar bear. In addition there are a lot of other people living and dying in weird ways in this world. This is an undramatic drama, carried out with non-verbal theatre and original score. The end result is aesthetically unique landscape shot in an old paper factory surroundings, including a big amount of mental and a small amount of physical acrobatics. The end result is unexpected, as can be expected.

Duration 37 mins. Not suitable for children. Available in BLU-RAY and DCP (25 fps).

Main credits: Creator & Director & Producer: Seija Hakkarainen. Sound Design & Editing: Seija Hakkarainen & Jukka Kaikkonen. Original music: Jukka Kaikkonen. Cinematography: Oskar Repo.
